

DECORATIVE ■■■ ARCHITECTURAL ARBORS Catalog Sheet

AUER-JORDAN'S DECORATIVE ARCHITECTURAL ARBORS

add picturesque architectural elements to garages, doors and windows. The arbors incorporate unique brackets and lathing which provides individuality, curb appeal and shade to homes, while providing a support for your favorite vine.

The finely crafted arbors are made from a sustainably harvested, dry, clear, white cedar and hand crafted in Healdsburg, California.

The components are fine sanded and ready to finish with your choice of clear, semi-translucent or opaque stains, as well as paint, to create the desired color.

The components attach to any appropriate structure with standard lag bolts and washers or deck screws in the appropriate length. (*Mounting hardware is not included.*)
